

I am very concerned that Sinclair Broadcasting is airing a Kerry hit-piece two weeks before the election. This is one-sided political advertising free-of charge. It is unfair. It is an abuse of the public airways for the political advantage.

Our democracy depends on a well-informed electorate. One-sided broadcasting does not serve this goal. Media conglomerates like Sinclair magnify the problem.

Please protect our democracy. Please place greater limits on the number of media outlets one group can own.
